biography

born

22 February 1985,
Bordeaux / France

about me

Working in private practices and Universities worldwide have created a unique and valuable set of skills : problem-solving, adaptability and flawless integration in new teams. I enjoy learning and sharing my knowledge with others. Having a photographic memory helps a lot. Over the years, I have developed a keen interest in the management of spinal and brain tumours, teaching and advanced neurosurgical training.

nationality

French
